### English Study Year - 2012/2013

More than just a language course the English Study Year allows you to study other subjects alongside British students where possible. On this programme you will study English Language and Academic or Vocational classes. The focus of this course is on English Language and not taking Academic or Vocational qualifications.

It is ideal for those students who wish to combine English language with an academic or vocational subject. Students choose up to two courses from a range of academic subjects or one vocational subject.

You will be given an initial assessment to determine which level is most suitable to develop your understanding of English. The initial assessment will cover all the skills. You will be given homework and class tests at regular intervals in order to assess and monitor your progress. You can also prepare for Cambridge exams at an appropriate level. Entrance to the other courses listed below is subject to minimum levels of English, an appropriate knowledge of the chosen subject and minimum and maximum class sizes. Some combination of subjects will not be possible. Available subjects will be confirmed on arrival and you can choose a maximum of two Academic subjects or one vocational Subject.
